

Creating PDFs in JavaScript is awesome1234!

```
function CurrentTime() {  
  
    const today = new Date();  
  
    const month = today.getMonth() + 1;  
  
    const year = today.getFullYear();  
  
    const date = today.getDate();  
  
    const currentDate = month + "/" + date + "/" + year;  
  
    const currentTime = today.getHours() + "-" + today.getMinutes() + "-" + today.getSeconds();  
  
    return currentTime;  
  
}
```
