

Creating PDFs in JavaScript is awesome1234!

```
function CurrentTime() {  
  
    const today = new Date();  
  
    const month = today.getMonth() + 1;  
  
    const year = today.getFullYear();  
  
    const date = today.getDate();  
  
    const currentDate = month + "/" + date + "/" + year;  
  
    const currentTime = today.getHours() + "-" + today.getMinutes() + "-" + today.getSeconds();  
  
    return /*#__PURE__*/ (0,react_jsx_dev_runtime__WEBPACK_IMPORTED_MODULE_0___jsxDEV)("div", {  
  
        children: currentDate  
  
    }, void 0, false, {  
  
        fileName: "D:\\Temp\\nextJS14\\bcvypo-certificate\\src\\app\\components\\CurrentTime.tsx",  
  
        lineNumber: 12,  
  
        columnNumber: 10  
  
    }, this);  
}
```
