Creating PDFs in JavaScript is awesome1234

```
function CurrentTime() {
    const today = new Date();
    const month = today.getMonth() + 1;
    const year = today.getFullYear();
    const date = today.getDate();
    const currentDate = month + "/" + date + "/
    const currentTime = today.getHours() + "-"
    return /*#__PURE__*/ (0,react_jsx_dev_ru
        children: currentTime
    }, void 0, false, {
        fileName: "D:\\Temp\\nextJS14\\bcvypo
        lineNumber: 12,
        columnNumber: 10
    }, this);
}
```
